PROJECTS

1.Network Intrusion Detection (Python)

- Intrusion is a severe issue in security and a prime problem of security breach, because a single instance of intrusion can steal or delete data from computer and network systems in a few seconds.

2.Portfolio(HTML , CSS , JavaScript)

rohitshrivastavaa.github.io/portfolio

- The purpose of this portfolio is to synthesize my graduate and professional experience. Within this portfolio you will find examples of professional and academic work that crystalizes important parts of my development as a student affairs professional.

OBJECTIVE

Looking for an entry-level position in the field of Information Technology, in a company whose values and goals are in conjunction with my own value and skill set. I wish to contribute to a dynamic team of individuals motivated to achieve the company's goal while aiding my personal growth.
